How to Make Air Fryer Donuts

If you're craving a sweet treat but don't want to spend hours in the kitchen, air fryer donuts are the perfect solution. Our easy-to-follow recipe will guide you through the steps to make mouth-watering donuts in no time.

To get started, preheat your air fryer to 350°F. While it's heating up, prepare your ingredients:

- 1 cup all-purpose flour (or gluten-free flour mix)
- 1/4 cup granulated sugar
- 1 teaspoon baking powder
- 1/4 teaspoon baking soda
- 1/4 teaspoon salt
- 1/2 cup buttermilk (or almond milk for vegan option)
- 1 egg (or 1 flax egg for vegan option)
- 1/2 teaspoon vanilla extract

In a mixing bowl, whisk together the flour, sugar, baking powder, baking soda, and salt. In a separate bowl, beat the buttermilk, egg, and vanilla extract together. Combine the wet and dry ingredients, stirring until fully mixed.

Using a piping bag or a ziplock bag with the corner snipped off, pipe the batter into the donut molds in your air fryer. Depending on the size of your air fryer, you may have to do this in batches. Cook the donuts for 5-7 minutes or until a toothpick inserted comes out clean.

Variations:

Air Fryer Donuts with Cinnamon Sugar: After the donuts are done cooking, brush them with melted butter and sprinkle cinnamon and sugar on top.

Gluten-Free Air Fryer Donuts: Follow the same recipe but substitute the all-purpose flour for a gluten-free flour mix.

Vegan Air Fryer Donuts: Replace the buttermilk with almond milk and the egg with a flax egg.

Quick Air Fryer Donut Holes: To make donut holes, simply roll the dough into small balls and place them in your air fryer for 4-5 minutes.

Once the donuts are done cooking, let them cool for a few minutes before adding your desired toppings and glazes.
